US OPTICAL BLU-TECH HD™

MF Blu-Tech HD™ is a mid index lens material infused with the precise balance of ocular lens pigment and melanin to give your eyes the optimum defense against harmful light spectrums. (Flourescent lighting, electronic screens - Phones, tablets, computers, TVs etc), and the sun's high energy blue light.

AVAILABLE IN:

Ultimate Blu-Tech HD™
Advanced Blu-Tech HD™
Wrap Blu-Tech HD™

SV Blu-Tech HD™
SV Blu-Tech Wrap HD™
PC Blu-Tech HD™ (only for indoors)

INDOOR LENS:

Light yellow tint from infused ocular lens pigment and melanin protect the eyes from high-energy blue light radiated by Flourescent & CF Light bulbs, computer screens, tablets and smart phones.

OUTDOOR LENS:

Polarized brown provides advanced protection from the sun's UV rays & harmful high-energy blue light, the kind that hastens macular degeneration.

DEFENSE AGAINST HARMFUL LIGHTS:

- UV ray and high energy blue light protection
- Natural depth and color perception
- Improves visual acuity and night vision
- Improves contrast and reduces glare
- Impact resistant

Add Digital AR™, Zeiss Purecoat or Crizal Prevencia AR to any US Optical Blu-Tech HD™ lenses.
