

BLUE LIGHT FILTERING

BLUE CLEAR™ HD

Blue Clear is a lens material that is clear in appearance but protects against Blue Light and UV from digital screens, fluorescent lighting and the sun. Blue Clear Lenses help with digital eye strain. Available in CR-39, Poly, 1.56, 1.60 and 1.67 in these US Optical exclusive lenses:

- Advanced HD™ Blue Clear™
- Ultimate HD™ Blue Clear™
- Exacta HD™ Blue Clear™
- Wrap HD™ Blue Clear™
- SV HD™ Blue Clear™
- SV Wrap HD™ Blue Clear™
- PC-HD™ Blue Clear™

BLU-TECH HD™

Blu-Tech HD™ is a mid index and polycarbonate lens material infused with the precise balance of ocular lens pigment and melanin to give your eyes the optimum defense against harmful light spectrums from digital screens, fluorescent lighting and the sun. Available in Indoor (Poly, 1.56) and Outdoor (Polarized) in Poly (Gray) 1.56 (Brown) lenses in these US Optical exclusive lenses:

- Advanced Blu-Tech HD™
- Ultimate Blu-Tech HD™
- Wrap Blu-Tech HD™
- SV Blu-Tech HD™
- SV Blu-Tech Wrap HD™
- PC Blu-Tech HD™ (only for indoors)

BENEFITS
