

NO GLARE SUBSTITUTES

USO SET AR

replaces Glance AR

USO SET AR is an entry level non-glare coating. Offers superior scratch resistance and cleanability than lenses without non-glare treatment. Lenses treated with SET will have a green residual color. USO SET AR carries a one-year warranty.

USO GET AR

replaces Glance AR

USO GET AR is the same basic recipe as USO SET AR. The only difference is that USO GET AR will give a gold residual color. USO GET AR carries a one-year warranty.

USO Advantage AR

replaces Carat/Carat Advantage AR

USO Advantage AR is a mid-tier non-glare coating. When compared to USO SET/GET AR, USO Advantage AR offers superior clean ability due to the addition of a super hydrophobic layer to the recipe. USO Advantage AR has a green residual color. USO Advantage AR carries a two-year warranty.

USO Pure AR

replaces Cobalt, Azul, Pura

USO Pure AR is a top tier no glare coating with similar scratch resistance and cleanability to USO Digital AR. The primary difference is glare reduction. Due to a change in the recipe, USO Pure AR offers superior glare reduction when compared to USO Digital AR. USO Pure is also the only coating in the USO family to give a blue residual color. USO Pure carries a two-year warranty.
