US Optical

Building on the legacy established by the Cotran brothers, US Optical remains committed to delivering exceptional craftsmanship, industry-leading turnaround, and dedicated customer support.

Independently managed and backed by an experienced, knowledgeable team, we make it easy to get the answers and personalized service your practice needs. While larger production labs may handle your vision plan orders, US Optical is the trusted partner for premium private-pay jobs that demand exceptional quality and speed.

Why Practices Choose Us

Unmatched Craftsmanship

- Extensive portfolio of premium freeform lens designs
- Proudly made in the USA
- Precision-crafted quality you can trust

Industry-Leading Turnaround

- Private-pay model keeps orders moving
- Triple the production capacity of many competitors
- Strategic location for faster nationwide shipping

Dedicated Customer Support

- ABO-certified, knowledgeable professionals
- Responsive service from people who know your business
- A true partner committed to your success

USO Absolute HD

Personalized Design with Great Performance

Key Features

Absolute, our premium lens design for the discerning
wearer, was created using a radical approach offering unrivalled smoothness of design.

Our ray-tracing technology provides more consistent optical performance over the range of prescription powers, and offers wider viewing areas for patients with hyperopia, improved distance area for patients with myopia and clearer image quality in main viewing areas.

- Superior comfort
- Faster adoption
- Minimizes the swim effect
- Wide viewing zones
- Excellent binocular balance
- Patient parameters and choice of frame considered to compensate the prescription
- Ideal for sports and fashion wrap frames

Comfort

Absolute HD Lenses seamlessly integrates the latest advancement in digital lens manufacturing to create the Premium Visual Experience for every patient.

Absolute is ideal for experienced progressive wearers looking for the best quality design and Sports wrap and fashion frame wearers.

USO Advanced HD

Personalized Design with Great Performance

Key Features

The Advanced HD™ progressive lens features sophisticated personalization to produce great optical performance.

Prescription personalization parameters, and frame data are taken into account to generate a customized lens surface that is specific to each wearer and frame providing a balanced design with a perfect combination of comfort and visual quality. This lens is highly recommended for wearers who want a complete personalized progressive lens with very large visual fields in all distances.

- Fully-personalized progressive lens
- Wider visual fields
- Oblique astigmatism minimized
- Superior visual comfort
- Clear vision in every gaze direction
- Fewer frame limitations
- Frame shape optimization available
- Optimum vision quality in high Rx's

USO Ultimate HD

Semi-Personalized Design with Full Compensation

Key Features

The Ultimate HD™ progressive lens is a semi-personalized but fully compensated lens.

Wearers receive a great visual experience with a much higher visual definition and level of comfort compared to a non-compensated progressive lens.

- Semi-personalized progressive lens
- Large visual fields
- Minor oblique astigmatism
- Great visual comfort
- Clear vision in every gaze direction
- Fewer frame limitations
- Frame shape optimization available
- Good vision quality in high Rx's
- Minimum Fitting Height 14 mm

USO Exacta HD

Entry Level Design

Key Features

The Exacta HD Lenses is an excellent general progressive design which provides the wearer with strong vision across all applications.

As part of our Everyday Progressive Range, Exacta HD provides a fantastic visual experience for a wide range of wearers.

Lenses are versatile for everyday use for the majority of eyecare patients assisting their vision for the various activities they participate in.

- Non-personalized progressive lens
- Strong balance of good distance, good intermediate and good near vision
- Ensures patient comfort is combined with strong vision
- Impressive optical solution for fashion or function

USO Personal Computer HD

Great for Office & Computer Work

Key Features

An excellent alternative to a traditional reading lens, our Occupational Design range is perfect for use in office environments, providing clear vision for reading and intermediate viewing.

Personal Computer HD reduces the eye and neck strain associated with the long-term use of computers which makes the lenses popular with not only office workers but also those who regularly undertake near vision work, such as musicians, creators and designers.

- Fully-personalized office lens
- Large intermediate and near zones
- Fast adaptation
- Ergonomically comfortable
- Improved vision when using electronic devices
- Less eye strain
- Not suitable for driving

Blu-Tech (Mid index)	Clear	-6.00 to +5.00	Up to -5.00

The PC-HD is available in 3 focal lengths to cover all of your patient's visual needs:

PC-HD Reading Clear vision up to 4 ft
PC-HD Desk Clear vision up to 6.5 ft
PC-HD Room Clear vision up to 13 ft

Up to 4 feet
(wider field of view)

Up to 6.5 feet
(can see further)

To view the monitor, the user must look through the zone represented by this color

USO Wrap HD

Eliminates Edge Distortion

Key Features

USO Wrap HD is uniquely customized for wrap frames utilizing dynamic technologies to create a unique personalized visual experience that is consistent across the lens.

Wrap HD has a low overall astigmatism and its intrinsically natural design enhances Wrap HD's excellent patient comfort.

- Distortion minimization
- Available in 6 and 8 base.
- Easy to edge for conventional, sport or sunglass wrap frames.
- Personalized for each prescription, face and frame (measurements for pantoscopic tilt, vertex distance and panoramic angle can be added).
- The minimum fitting height is 14mm.

USO Drive HD

Enhanced Distance Vision for Driving Performance

Key Features

Drive HD is a progressive design that includes a wide distance area for comfortable viewing across the full width of the windscreen.

The intermediate area is perfect for reading dashboard gauges. Drive HD offers a comfortable wearer experience for commuters and regular drivers.

- Most comfortable freeform progressive for driving.
- Allows wearer to drive without unnecessary head movements
- Wide clear area for distance vision adjusts power distribution for driving tasks.
- The minimum fitting height is 22mm

USO SV Boost HD

Anti-Fatigue Lens Design

Key Features

SV Boost™ is a single vision personalized lens with a soft design that reduces visual fatigue symptoms associated with reading for long periods of time.

It offers an extra addition in the near vision region of the lens to relax the adjustment between different distances and increase focus with less effort.

We spend on average more than 8 hours a day in front of digital screens, constantly switching between devices. The SV Boost helps users transition easily between different working distances.

This lens is perfect for wearers between ages 18 and 45 who need better near vision. The SV Boost anti-fatigue lens is available in 3 additions: 0.50 D, 0.75 D, and 1.00 D.

- Fully-personalized anti-fatigue lens
- Reduces visual fatigue symptoms
- Improved focus with less effort
- Ergonomically comfortable
- Improved vision when using electronic devices
- Includes an extra addition in the near vision region

USO SV HD

High Performance Single Vision

Key Features

SV HD delivers maximized visual performance from the center to the edge of the lens, providing the wearer “no limits vision”.

This design is especially beneficial for high minus and plus prescriptions, prescriptions with large astigmatic corrections, and sport frames.

- Fully-personalized single vision lens
- Outstanding visual comfort and clarity
- Oblique astigmatism minimized
- Perfect for wrap frames
- High-definition vision from the center to the edge of the lens
- Beneficial for high Rx’s, and Rx’s with large astigmatic corrections

USO SV Wrap HD

Eliminates Edge Distortion

Key Features

SV Wrap HD is uniquely customized for wrap frames and sunglass wraps.

Through software optimization, Wrap HD eliminates peripheral distortions in wrap frames.

- Distortion minimization
- Wider field of vision
